

Men's Chorus

BRIGHAM YOUNG UNIVERSITY

# MEN'S CHORUS

**Brent Wells, Director**

Truly I have never heard a large group of men sing with such precision and nuance—musical to the core!

**KIRKE MECHEM**  
*Choral Composer*

The bright, energetic, richly melodic sound of the BYU Men's Chorus contributes to its growing reputation as one of the premier choral programs in the United States.

*Primarily A Cappella*

It was fantastic from beginning to end! I mean, it was just really magnificent! . . . A great appeal of the Men's Chorus is the great variety of things that they do. . . . They were just so well done. Everything was well done.

**MACK WILBERG**  
*The Tabernacle Choir at Temple Square*

When I listen to a choir, the thing that I want to hear, aside from the obvious of right notes and right rhythms, is a spirit—I want my soul nourished, and I want to somehow know those people through their spirits. . . . There are many good choirs in the country, but there aren't many that sing with that kind of spirit and commitment and love. There is some kind of something going on there. They're really wonderful!

**JAMES JORDAN** *Westminster Choir College*
